

Honorable Michael E. Horowitz
Inspector General
U.S. Department of Justice
950 Pennsylvania Avenue, N.W., Suite 4706
Washington, D.C. 20530-0001

There was a FISA Warrant Application to wiretap Michael Cohen. Application was to be submitted to FISA Court shortly after Election in November of 2016 and AFTER FBI Terminated Steel's employment. The only evidence in support of surveillance of President Elect's Attorney was Steele's report of Cohen's Prague meeting. The different Michael Cohen Prague visit was not a coincidence. It was necessary to justify the FISA Warrant application. The plan was scrapped after my November 16, 2016 Memo. I believe the FISA application did make its way to FISA Court Clerk's office and was withdrawn on November 18th, 2016.

Persons familiar with the FISA Warrant Application targeting Michael Cohen are -

1. James Comey - then Director of FBI
2. Andrew McCabe - then Deputy Director of FBI
3. James Baker - then General Counsel of FBI
4. Lisa Page - then Advisor to Deputy Director of FBI
5. Peter Strzok - then Deputy Assistant Director of the Counterintelligence Division of FBI
6. Sally Yates - then Deputy Attorney General
7. Bruce Ohr - then Associate Deputy Attorney General

Rod Rosenstein became aware of the document in 2017 and expressed negative reaction to it.

The only person who saw the document itself and whom you still can interview as employee of DOJ is Bruce Ohr. By the exception of Strzok, who was fired, the rest of the pack conveniently quit the DOJ so you don't have access to them.

Rosenstein is doing everything he can to either be fired or quit so you can not ask him questions. Just in case they lie to you or would be out of office before you interview them - the document was

prepared by Lisa Page and should be available at her home computer.

I am not sure if FISA Clerk's office keeps records of applications that were withdrawn, but you might be lucky there - even if they don't have actual record, someone might remember something as it is not a usual practice for DOJ to withdraw the warrant.

This warrant, solely based on Steel's statement that Michael Cohen had a secret meeting in Prague with Russian Operatives is an important evidence of conspiracy by FBI-CIA-NSA-DNS officials against Trump. Different Michael Cohen travelled to Prague on the orders of GRU so later on Steele could use the meeting in his dossier and DOJ could have a reason to wiretap President Elect Attorney. Brennan and Clapper was aware of it. Because of my disclosures they now saying that Russian Card was planned to be used against Trump, should he declined to concede the loss. It is not true. There was no reason for any pressure on Trump should he lose and not concede. He didn't have to concede if he lost for Hillary to be certified a winner. They planned to use the Russian Card against Trump should he win. And they did.

To: Honorable Doug Collins

From : [REDACTED]

Please find below small part of communications that was send by me over past two years to FBI, US House of Representatives Select Committee on Intelligence, Office of Special Counsel, DOJ IG, etc

Your assertion on DOJ is not correct. Putin and Obama plan was to sabotage the person who win the Election. If it be Clinton - Comey in a dramatic fashion would announce charges against her based on "just unearthed new information" tied to investigation to Clinton Foundation. Should it be Trump - the Russian Card would be played and Espionage Charges would be brought base on Cohen Prague trip. I throw a curveball at them with my November 16, 2016 text. A close examination of attached documents will help you to connect the dots. For example the plan to have Cohen to testify to Congress and Senate that he in fact was travelling to Prague and had discussions with Russian Operatives on behalf and following direct instructions of Candidate Trump. After my communications to US Senate Judiciary Committee and to IG Horowitz, and what is even more important - after my December 18, 2018 text :

"They want Cohen to testify in Congress that he lied and actually took a trip to Prague. Need all the photos of him covering August, 2016. His Passport records. All records for the rental he used" the plan was scrapped. They realised that my request was a direct result of a story that BROKE 10 days later when Cohen's phone foreign electronic intelligence intercepts were shared with special counsel Robert Mueller and supposedly tied Cohen to Prague. Everybody realised that the actual Cohen phone intercepts as well as minute by minute report of his car movements would demolish the whole Prague card.

Putin is moving to world domination. He prefers to do it without a war. And the only way to become a ruler of the world without a war is to destroy the world the way we know it. And to build a new one. It took Putin 5 years of persuading China to join him. He needed China in order to start a world financial meltdown by fire sale of US Treasury to the point that US Dollar will collapse. That should bring about the end of the Western Civilisation with Russia and China emerging as as a New World Powers. Because over last 10 years Putin completely restructured Russian Economy to the point that Russia, China and few other countries would be able to survive the 7 years of atrocities that will follow the world economic meltdown. One chapter in my book will be focusing on the details of this op. What's important to understand now is that after Trump applied pressure on China, the outlook of China ability to weather the storm was very bleak. So Putin's plan, that was first viewed as crazy by Xi Jinping , all at a sudden become the only real option. So Xi Jinping agreed to allow Putin to use the 2 Trillion of China Controlled debt to tank the Dollar. This time around Putin did not need Soros. He would control the whole process himself. I did not wanted to explain the details of this operation to US Officials using regular channels. It would be nice , I thought, to let Trump know of the plan, let Putin get on with it, and once Dollar loses around 40 percent of its value, buy the entire 2 trillion of China's holdings at half a price. At the end of the day, Dollar would rebound and China would have no other way but to bow down to all US demands to secure a New Marshall Plan to save China's Economy. And it would cost US Taxpayers ZERO as the Trillion Dollars US would influx to China

Economy would be the Trillion US Just made by outmaneuvering Putin. At the end of October, 2018 I faxed and emailed to Kash Patel the following letter -

To: Kashyap Patel

From: [REDACTED]

Good morning Mr.Patel

I have an important information to share. This information is important to protect the National Security of USA. Due to sensitivity of this information, I can only disclose it in a secure facility. Time is of essence.

Please find below the copies of communications that was send by me over past two years. Those communications were originally send to FBI, and later on the copies were sent to House Select Committee on Intelligence and United States Department of Justice Office of Special Counsel and 16 US Senators and 10 US Congressman.

The main purpose of me sending you those copies today is to make the following point - Almost all if not all the statements made by me over past two years are independently confirmed by different sources long after my disclosures. Be that the fact that Clapper and Brennan used NSA apps to blackmail Justice Roberts that is now confirmed by Dennis Montgomery. Or Ohr memo to Strzok and Page on November 21 - five days after my Nov 16 memo. Or recent disclosure that by New York Magazine that the plan was in place to use the intelligence community claims that Russian interference supported Trump's candidacy.

Keep in mind that a story that Rosenstein wanted to record Trump was aired a few days after I faxed everything to Senators and Congressman on September 7th, 2018. That story followed by Rosenstein verbal resignation to Kelly. It is reasonable to assume that my communications to Senators like Graham and Cruz had played a major role in Rosenstein's sudden desire to be fired or resigning.

The Baker explosive testimony was a result of same communications to Senators , and also, from my email that was sent to 13 destinations on September 30, 2018. That particular email was the reason that no new negative developments on Kavanaugh occurred between October 1 and October 6th. It also made Baker realize that it is to dangerous for him to continue.

The Mueller final report, that will pretty much be a statement that there is no there there is also a result of my memos.

The reason I am including copies of my communications as well as informing you now of all the developments that I mentioned above is to convince you that somehow I was providing US Government with credible information in a recent past and have much more important credible information now.

Unfortunately every plan has negative parts. I consciously took steps in 2011 and 2012 to insure that every step of mine is being watched by NSA and GRU. Now I have to make sure that my conversation with you and Chairman Nunes will be conducted in a safe environment. Please arrange a meeting with me in a facility that is completely secured.

Thank you

[REDACTED]

When nobody responded I had no choice but to communicate my info verbally in conversation with few people. I knew all my conversations are recorded by FBI, but had a small chance that Putin would not risk tape recording me, knowing that I am watched 24/7 by multiple US agencies. As I suspected Putin was watching me even closer than Americans did. He simply assigned one of Russian Spy satellites to follow my every movement. I did not think that I deserve that much attention, but Putin thought otherwise. On November 8th, 2018 my cousin [REDACTED] and her husband [REDACTED] a retired FBI employee had a dinner at my house. They were some of the people I shared with what Putin have in store for the rest of the world. On November 17th, I texted to myself the following - "House, NK, Saudi, Mueller"- which was the steps Putin needed to happen in order to start selling off the Dollar, without anybody suspecting a foul play. It had to look as natural developments of the Exchange Markets as reaction to certain news. So nobody could point fingers at Putin or Xi Jinping and start a WWII. So the plan was following - Republicans lose the House. North Korea talks collapse and Fat Boy will start the Nuclear and Ballistic tests on a level not seeing before, Trump will blow over brutal murder of Khashoggi-which was orchestrated by GRU that manipulated both Saudis and Turks so the killing would be absolutely horrifying and recorded. And if he won't, then House and Senate will slap Saudi with big sanctions and finally Mueller will issue a report that would recommend obstruction charges and House will bring about Articles of Impeachment. And then the selling would start as natural effect of the mention above causes. When on November 21, 4 days later under Putin's orders a new GRU Director Igor Korobov was assassinated everybody with access to my communications realized how correct I was. The conclusion was reached that Mueller report would be de facto rehabilitation of Trump and would be made public.

As a result no impeachment process. No Saudi Sanctions and careful approach to Fat Boy and other Putin's proxis.
